WORKSHOP

BUCKET DRUMMING

Activity No. 6

STEP 1

Secure a bucket and two drumsticks or similar objects.

STEP 2

Explore the different sounds your bucket can make. Use a simple imitation game where one person leads while the other imitates their actions. Common bucket sounds are made by striking the side, top, rim, and clicking the sticks together.

STEP 3

Make some music. Start by drumming a steady beat to your favorite song. Then add some different rhythms and compose your own beats.

Check out these bucket drumming play-a-long videos on [YouTube](#).
