

The
MUSIC
WORKSHOP

SONG WRITING

Activity No. 7

STEP 1

Pick a topic and create a list of words associated with that topic.

STEP 2

Pick your favorite nursery rhyme. Start with a simple one.

STEP 3

Take the words from your list and start creating short sentences or ideas.

STEP 4

Experiment with your ideas and sentences in place of the original lyrics to the nursery rhyme. See what fits, and make changes as needed. It's not a science. You may end up altering the original melody to fit your new lyrics, and that is okay!
